Horizontal Honing Machine SF0012321

PRODUCT SPECIFICATION

Model	**SF0012321**
AVAILABLE CATEGORIES	**No Match**
Bitumen Testing Apparatus	**Horizontal Honing Machines**
Brand	**Wendt**
Short Stroking	**Fully programmable length & frequency**
Diameter Range	**1.14 - 120 mm - Subjected to Honing application**
Stroke Length	**3 - 300 mm (Subjected to Honing Application)**

PRODUCT DESCRIPTION

The Wendt Horizontal Honing Machine offers precise honing capabilities with programmable stroke length and frequency, suitable for various honing applications. It features a 3.7 kW spindle motor and DC electronic induction braking, enabling efficient and accurate material removal. The machine supports short stroking with a precision recirculation ball screw, providing high accuracy and flexibility. Ideal for metalworking and machining, it is designed for both manual and automated use, making it a versatile solution for industrial settings.

Key Features

- Fully programmable stroke length and frequency
- kW spindle motor with DC electronic induction braking
- Precision recirculation ball screw for high accuracy
- Programmable electro-mechanical feed system
- mm diameter range
- mm stroke length
- Horizontal honing application suitability
- Suitable for manual and automated use
- Model: SF0012321
- AVAILABLE CATEGORIES: No Match
- Bitumen Testing Apparatus: Horizontal Honing Machines
- Brand: Wendt
- Short Stroking: Fully programmable length & frequency
- Diameter Range: 1.14 - 120 mm - Subjected to Honing application
- Stroke Length: 3 - 300 mm (Subjected to Honing Application)
- Feed Type: Programmable electro-mechanical
